

1. ****What is EventSpot and how does it help me?****

EventSpot helps you discover events, view details, and book tickets in one place.

2. ****How can I search for events near me?****

Use the events page and filter by location to find nearby events.

3. ****Can I filter events by date?****

Yes, you can narrow event results by date and schedule preferences.

4. ****Can I filter events by price?****

Yes, you can check ticket price in event details and choose accordingly.

5. ****How do I view full event details?****

Open any event card to see venue, date, ticket price, and description.

6. ****Can I see event images before booking?****

Yes, event listings include uploaded images for preview.

7. ****How do I check event location clearly?****

Event details include the full address so you can verify the venue.

8. ****Can I book tickets without creating an account?****

No, you must log in to book tickets securely.

9. ****How do I create an account?****

Go to signup, enter your details, and complete registration.

10. ****Can I log in with Google?****

Yes, Google sign-in is supported.

11. ****Can I log in using email and password?****

Yes, EventSpot supports email/password login as well.

12. ****What if I forgot my password?****

Use the forgot-password/reset flow from the login section.

13. ****Why am I redirected to login again?****

Your session token likely expired; login again to continue.

14. ****How do I update my profile info?****

Use the profile section from your account menu.

15. ****Can I see my previous bookings?****

Yes, your booking history is available in your dashboard.

16. ****How do I book an event ticket?****

Open an event, choose ticket quantity, then proceed to payment.

17. ****Can I select multiple tickets in one booking?****

Yes, you can choose ticket quantity before checkout.

18. ****Which payment gateway is used?****

Payments are processed using Razorpay.

19. ****Is payment secure on EventSpot?****

Yes, payment is handled through verified gateway flow and backend checks.

20. ****How do I know if booking is confirmed?****

You'll see a successful booking status and record in your bookings list.

21. ****What if payment is debited but booking didn't appear?****

Wait briefly, refresh bookings, and contact support if it still doesn't show.

22. ****Can I cancel a booking?****

Cancellation depends on event policy and current system rules.

23. ****Will I get a refund after cancellation?****

Refund eligibility depends on organizer policy and payment status.

24. ****How long do refunds take?****

It depends on gateway/bank timelines, usually a few working days.

25. ****What if my payment fails?****

Retry payment; no booking is finalized until payment is verified.

26. ****How do I list my own event?****

Use "List Your Event" after login and submit event details.

27. ****What details are required to create an event?****

Event name, date, location, ticket count, ticket price, and description.

28. ****Can I upload photos while creating an event?****

Yes, event images can be uploaded during event creation.

29. ****Can I edit my event after publishing?****

Yes, organizers can update their listed events.

30. ****Can I delete my event?****

Yes, organizers can delete events they created.

31. ****Why is my event not public yet?****

It may be waiting for admin approval.

32. ****What does "disapproved event" mean?****

Admin rejected it and usually provides a reason/suggestion.

33. ****Can I resubmit after disapproval?****

Yes, update the event based on feedback and submit again.

34. ****Who can approve or reject events?****

Only admin users can moderate events.

35. ****How can I track bookings for my event?****

Organizer views show event and booking-related status information.

36. ****Can I host free events on EventSpot?****

Yes, you can set ticket price accordingly for free entry.

37. ****Does EventSpot support paid events?****

Yes, paid ticketing is fully supported.

38. ****Can I ask the chatbot for event help?****

Yes, the chatbot can answer event-related and app-usage questions.

39. ****What can I ask the chatbot?****

You can ask about bookings, event flow, policies, and app guidance.

40. ****Why did chatbot reply vaguely?****

The required context may not be in uploaded documents or question was broad.

41. ****Can chatbot suggest what to do if payment failed?****

Yes, it can guide you through retry and support steps.

42. ****Can chatbot explain organizer workflow?****

Yes, it can explain listing, moderation, and updates.

43. ****Can chatbot answer policy questions?****

Yes, if policy info is present in uploaded knowledge documents.

44. ****How do I contact support for urgent issues?****

Use app support/contact channel with booking/event details.

45. ****What info should I share with support?****

Share event name, booking id, payment reference, and issue screenshot.

46. ****What if events are not loading?****

Refresh, check internet, then re-login if session expired.

47. ****What if I see “Invalid or expired token”?**

Your login token expired; sign in again to continue.

48. ****Can admin manage uploaded chatbot PDFs?**

Yes, admin can upload, preview, refresh, and delete PDFs.

49. ****Can I view which PDFs are currently used by chatbot?**

Yes, the admin chatbot page lists uploaded PDF files.

50. ****How often should I update chatbot PDFs?**

Update whenever event policies, workflows, or FAQs change.
